SEO & SITE STRUCTURE

10/15 ITEMS • 30 WEIGHT

18/30

60% INTENSITY

Pre-Verify All

Clear Items

META TAGS & PAGE TITLES (6 PTS)

4/6

Title tag present and ≤ 60 characters

+2 Pts

Ensure every page has a unique title tag under 60 characters. Tip: Front-load important keywords if possible.

KB-DIAGNOSTIC [↗](#)

Meta description present and ≤ 160 characters

+2 Pts

Open Graph / Twitter meta tags present

+2 Pts

HEADINGS & STRUCTURE (5 PTS)

5/5

Page has one <h1> and meaningful <h2>/<h3> structure

+3 Pts

No heading tag misuse (e.g., multiple h1s)

+2 Pts

INDEXING & CRAWLABILITY (5 PTS)

3/5

robots.txt file present and valid

+1 Pts

sitemap.xml accessible

+1 Pts

noindex not set on main pages

+1 Pts

Canonical tags used properly

+2 Pts

Implement canonical tags correctly (self-referencing or to the main version) to avoid duplicate content issues and consolidate link equity.

[KB-DIAGNOSTIC](#) 

SCHEMA MARKUP (4 PTS)

0/4

JSON-LD or Microdata schema present (Article, Organization, etc.)

+4 Pts

Add structured data (Schema.org markup) like Article, Organization, BreadcrumbList, or FAQPage to help search engines understand your content and potentially enable rich snippets.

[KB-DIAGNOSTIC](#) 

INTERNAL LINKING (5 PTS)

3/5

Interlinking between articles/pages exists

+3 Pts

No broken internal links (simulated)

+2 Pts

Regularly check for and fix broken internal links to improve user experience and crawlability. Use tools like Screaming Frog.

MOBILE SEO & ACCESSIBILITY (5 PTS)

3/5

Mobile-friendly viewport configured

+1 Pts

ALT text on images (simulated check on prominent images)

+2 Pts

Semantic HTML tags (header, nav, footer) used

+2 Pts

Use semantic HTML5 tags like <header>, <nav>, <main>, <article>, <aside>, and <footer> to structure your content meaningfully.

CONTENT QUALITY & COMPLIANCE

5/18 ITEMS • 30 WEIGHT

8/30

27% INTENSITY

Pre-Verify All

Clear Items

ARTICLE COUNT & DEPTH (8 PTS)

0/8

Minimum 20 indexed articles (simulated)

+2 Pts

Aim for at least 20-30 high-quality, indexed articles or pages to show site substance. Quality over quantity is key.

Minimum 600 words per article (average, simulated)

+2 Pts

Ensure articles are substantial and provide depth. For informational content, 600+ words is a good guideline, but value matters most.

- ☐ **Original content (simulated plagiarism/AI check >80% original)** **+2 Pts**
Content must be original and unique. Avoid plagiarism and ensure any AI-generated content is heavily edited, fact-checked, and provides unique value.
- ☐ **Clear, useful language (simulated Flesch score > 60)** **+2 Pts**
Write clearly and concisely for your target audience. Aim for a Flesch Reading Ease score of 60 or higher for general audiences.

E-A-T SIGNALS (7 PTS)

2/7

- ☐ **Author info or byline present** **+2 Pts**
- ☐ **Site mentions credentials or experience** **+1 Pts**
Showcase any relevant credentials, expertise, awards, or experience on your 'About Us' page or author bios to build trust.
- ☐ **External backlinks to trusted sources (simulated)** **+2 Pts**
Link out to authoritative and relevant external sources where appropriate to support your content and demonstrate research.
- ☐ **Outbound links open in new tab with rel attributes (e.g., noopener)** **+2 Pts**
Ensure external links open in a new tab (target="_blank") and use rel="noopener noreferrer" for security.

LEGAL & TRUST PAGES (8 PTS)

6/8

- ☐ **Privacy Policy page present & comprehensive** **+2 Pts**
- ☐ **Terms & Conditions page present & clear** **+2 Pts**
- ☐ **Disclaimer page present (if applicable) & visible** **+1 Pts**

Provide a Disclaimer page, especially if offering advice (financial, health, legal, etc.) or using affiliate links. Make it easy to find.

Contact Us page with functional, real email/form

+1 Pts

About Us page with transparent person/entity details

+1 Pts

Cookie Consent mechanism functional (for EU/GDPR traffic)

+1 Pts

If targeting EU users, implement a functional, GDPR-compliant cookie consent banner that allows users to accept/reject non-essential cookies before they are set.

ADSENSE CONTENT POLICY COMPLIANCE (7 PTS)

0/7

No adult/pirated/violent/dangerous content

+3 Pts

Strictly adhere to AdSense content policies. Remove any content related to adult themes, pirated software/media, violence, hate speech, illegal drugs, weapons, etc.

[KB-DIAGNOSTIC](#)

No excessive profanity or hate speech

+1 Pts

Maintain a professional tone and avoid excessive profanity, offensive language, or hate speech.

No misleading health or financial claims

+2 Pts

Avoid making unsubstantiated or misleading claims, especially in health and finance niches (YMYL). Content should be accurate and trustworthy.

No scraped or spun content

+1 Pts

All content must be original and provide unique value. Scraped, aggregated, or heavily spun content will lead to rejection.

TECHNICAL PERFORMANCE

2/9 ITEMS • 20 WEIGHT

5/20

25% INTENSITY

✓ Pre-Verify All

✕ Clear Items

PAGE SPEED (5 PTS)

0/5

☐ **Google PSI score > 70 desktop (simulated)** **+2 Pts**

Aim for a Google PageSpeed Insights score above 70 for desktop. Optimize images, leverage browser caching, and minimize render-blocking resources.

[KB-DIAGNOSTIC](#) 

☐ **Google PSI score > 50 mobile (simulated)** **+3 Pts**

Mobile speed is critical. Aim for a Google PageSpeed Insights score above 50 for mobile. Prioritize above-the-fold content loading.

CORE WEB VITALS (5 PTS)

0/5

☐ **LCP < 2.5s (simulated)** **+2 Pts**

Largest Contentful Paint should be under 2.5 seconds. Optimize server response times and resource load times.

[KB-DIAGNOSTIC](#) 

☐ **CLS < 0.1 (simulated)** **+2 Pts**

Cumulative Layout Shift should be under 0.1. Always include size attributes on images and videos, and reserve space for ads.

[KB-DIAGNOSTIC](#) 

☐ **FID < 100ms / INP good (simulated)** **+1 Pts**

First Input Delay should be under 100ms. Break up long JavaScript tasks and optimize event handlers.

[KB-DIAGNOSTIC](#) 

SECURE SITE (HTTPS) (2 PTS)

2/2

Valid SSL cert, no mixed content

+2 Pts

RESPONSIVE LAYOUT & VIEWPORT (3 PTS)

3/3

Uses media queries and scales on mobile

+3 Pts

404/BROKEN LINKS & ERRORS (5 PTS)

0/5

No 404 errors on main pages

+3 Pts

Regularly scan for and fix 404 errors. Set up proper 301 redirects for deleted or moved pages.

No broken internal or external links (simulated)

+2 Pts

Regularly scan for and fix broken internal and external links. Broken links frustrate users and can harm SEO.

USER EXPERIENCE & ENGAGEMENT SIGNALS

1/12 ITEMS • 20 WEIGHT

2/20

10%
INTENSITY

Clear Items

UI/UX SIGNALS (5 PTS)

0/5

Clean, professional design with good readability

+2 Pts

Maintain a clean, professional design that instills trust in visitors. Use readable fonts and proper contrast.

- ☐ **No excessive ads/pop-ups, intrusive interstitials avoided** **+2 Pts**
Avoid cluttering your site with excessive ads, intrusive pop-ups, or interstitials that block content.
- ☐ **Readable fonts and adequate text sizes** **+1 Pts**
Use readable fonts with appropriate sizing (minimum 16px for body text) for comfortable reading.

NAVIGATION AND SITEMAP (3 PTS)

0/3

- ☐ **Navigation bar/menu present on all pages** **+1 Pts**
Ensure consistent, easy-to-use navigation is present on every page.
- ☐ **Breadcrumbs or footer nav exists** **+1 Pts**
Implement breadcrumbs for easier navigation on content-rich sites or ensure a comprehensive footer navigation.
- ☐ **HTML sitemap or clear sidebar links** **+1 Pts**
Provide an HTML sitemap or clear sidebar navigation for users to easily find content.

ENGAGEMENT & ANALYTICS (4 PTS)

2/4

 **Google Analytics or similar script installed (simulated)** **+2 Pts**

- ☐ **Comments or user interaction visible (optional, but good)** **+1 Pts**
Encourage user engagement through comments sections or forums if appropriate for your site's niche and content.
- ☐ **Bounce rate indicators (simulated, e.g., <70%)** **+1 Pts**
Monitor bounce rate; high bounce rates might indicate poor content relevance, UX issues, or slow loading times.

BACKLINK & TRAFFIC SIGNALS (8 PTS)

0/8

**Some organic traffic (simulated > 0)****+3 Pts**

Your site should have organic traffic from search engines. Focus on SEO and content marketing to build traffic.

**Backlink count > 10 (simulated, even small ones)****+2 Pts**

Build quality backlinks from other websites to improve your domain authority and trustworthiness.

**At least 2 pages indexed in Google (simulated)****+3 Pts**

Ensure your key pages are indexed by Google. Check using 'site:yourdomain.com' search in Google and monitor Google Search Console.
